# Preventis : business lines

## Training modules

Communicating knowledge, technical skills and interpersonal skills, for a better work environment.

## Listening and Counselling Plan

Proposing a place for listening and counselling, in support of the occupational medicine, through face to face or telephone interviews.

## Mediation Practice

A dynamic process introducing a third party, in order to create or revive social support and to prevent or resolve a crystallised conflict.

## Global Prevention to International Mobility

★ Assessment, support and monitoring actions to insure the success of the expatriation of a collaborator.

## Psychological care after a traumatogenic event.

An individual and/or collective specific support for collaborators exposed to a potentially traumatic event.

## Psychosocial Risks Identification Procedure

A dual and additional approach, to ease the implementation of targeted prevention actions.

## The COPSOQ network (also named “Copsoqer”)

- An international workshop: every two years...

2007: Copenhagen

2009: Freiburg

2011: Barcelona

2013: Gent

2015: Paris

... Who's next?

➤ Share all presentations

- A steering committee
- A website: <http://www.copsoq-network.org>
